All photos in the catalog are illustrative and deviation in colors is possible. Decoration is not included in the finished products. Printing mistakes are possible, as well as change in the design of the products. All dimensions are shown as L (length) / W (width) / H (height). All sizes are in millimeters, except where other measure is written. Because of the nature of upholstered furniture deviations from the noted sizes are possible to occur. All rights reserved!

BS SERIES

modular system beds

A BS Series bed is easily distinguished by its height, which is a look that is preferred by some people. BS Series prevent the mattress from sagging and support it properly, dispersing body weight evenly across the foundation. They add support and absorb body weight, which extends the life of the mattress. The warm feeling of a box springs bed is more appealing to certain people over the simplified look of standard beds. They provide a softer sleeping surface compared to the simple bed with mattress. The BS Series beds that we offer are a combination of different options for your use, should you want to go on the cheap end or you want to immerse yourself into greater comfort. Customers may well choose between different base comfort, different mattress fillings, different bed backs and different top mattresses. Accessories to complete the aesthetics of the BS Series bed are also available – options for legs and decoration cushions are at hand. It is recommended that the customer turns the mattress regularly to help increase the life of the mattress. Find inspiration in the world around you and create your personalized BS Series bed.
